Aspects PerfectSense Gloss

Aspects PerfectSense Gloss is an ultra-gloss surface that makes a bold statement of luxury. A special coating method with UV paint technology clearly enhances the surface of PerfectSense. With the ability to reflect light, it can help make spaces feel brighter and bigger. A high-end look must not fade, so we've added a unique UV coating that is both hard-wearing and protective, to ensure PerfectSense Gloss shines longer. Previously, a high class, high gloss finish meant high costs and even higher maintenance. With PerfectSense Gloss that stops. It is now time to think beyond what was once impossible.
